In your best Spanish, make a 2 minute audio recording in which you tell the story represented in these 6 pictures. You will have 2 minutes to think about the pictures and 2 minutes to tell the story suggested by the pictures. Although you may spend more time describing what happens in some pictures than in others, you should try to talk about all the pictures as you tell the story. Move directly from one picture to the next. In describing the pictures and the story they tell, you should use as much of the 2 minute response time as possible. If you hear yourself make an error as you are speaking, you should correct the error. Keep in mind that your recording will be evaluated according to the following criteria:
