AP Spanish Language Semester 2
Assignment: Using Technology

In your best Spanish, make an audio recording in which you answer the following series of 5 questions. Listen carefully to each question since they will be spoken only twice and you will not receive a printed copy of them. Your comprehension of the oral questions will affect your score. You should answer each question as extensively and as fully as possible in about 20 seconds. If you hear yourself make an error as you are speaking, you should correct the error. Keep in mind that your recording will be evaluated according to the following criteria:

- **Content:** Do the directed responses answer the questions thoroughly?
- **Vocabulary:** Do the directed responses use rich, precise, idiomatic vocabulary?
- **Grammar:** Do the directed responses show control of complex structures and verbs?
- **Pronunciation:** Do the directed responses show excellent pronunciation, especially regarding target sounds?
- **Fluency:** Do the directed responses show an ease of expression through a high level of fluency?
